Empathy, Active Listening, Written & Verbal Communication, Collaboration, Emotional Intelligence, Adaptability, Organization, Patience, Customer Service, Client Relations, Relationship Management, Teamwork, Interpersonal Skills, Critical Thinking, Problem-Solving, Strategic Planning, Conflict Management, Process & Performance Improvement, Diversity Awareness

Achievement Highlights

- Awarded Haggai Academy Scholarship Dean’s List
- NC Council of Teachers of Mathematics Speaker
- First class to graduate with EDTPA research requirements
- Led strategic initiatives as part of the Magnet Leadership team at Konnoak Elementary school, collaborating with administrators and teachers to enhance magnet program effectiveness, develop curriculum alignment, and drive student enrollment and engagement in specialized programs.
- Successfully authored and secured multiple DonorsChoose grant proposals for classroom resources in a Title 1 school environment, demonstrating resourcefulness and grant-writing ability to obtain 100% funding rate for essential educational materials and student enrichment opportunities.
- Maintained top performance indicators in all district and school level observation and evaluations.

Projects

Pearl SAAS Platform Website Redesign | Sep - Oct 2024.

- Created and implemented a design system and style guide that streamlined the internal workflow and efficiency while maintaining the e-commerce branding and aesthetics.
- Executed a 3-week website redesign to improve the flow through 3 rounds of usability tests by identifying users’ pain points through heuristic evaluation, and quantitative, and qualitative research methods.
- Ideated and delivered a 12-screen high-fidelity interactive prototype that optimized both customer needs, business goals, and strategy from customer journey map, C&C analysis, and business service blueprint.

Moleskine Notes iOS App Redesign | August 2024

- Collaborated on a team to design a social networking feature for Moleskine Smart Notebooks, balancing client business needs with user goals to enhance creative sharing and engagement.
- Conducted comprehensive user research and 3 rounds of usability testing, synthesizing findings to iterate on prototypes and improve the social networking experience for Moleskine users.
- Developed high-fidelity interactive prototypes demonstrate innovative solutions for creative content sharing while addressing potential negative social behaviors in the platform.
- Created and implemented a design system that streamlined the internal workflow and efficiency while maintaining the e-commerce branding and aesthetics.

Kinder Haus Toys E-Commerce Website Redesign | July 2024

- Redesigned the e-commerce website for Kinder Haus Toys, focusing on improving information architecture and usability to enhance user satisfaction and performance.
- Conducted comprehensive user research, including task analysis and usability testing, to identify pain points and inform design decisions for the website re-design.
- Developed and tested a mid-fidelity prototype incorporating improved navigation, product listing, and checkout process, resulting in a more intuitive and accessible e-commerce experience.

Paws & Poise Mobile App design | June 2024

- Designed a user-friendly mobile app for Paws & Poise, streamlining appointment scheduling and product ordering, resulting in improved customer experience and increased efficiency for the business.
- Conducted user research and synthesized insights to develop a problem statement, focusing on simplifying the scheduling process and integrating e-commerce functionality for pet care products.
- Created and iterated on low-fidelity prototypes, including grayscale wireframes and a clickable prototype to effectively communicate the proposed solution for the mobile grooming service app.

Experience

UX Researcher/Project Manager| Pearl | 2024

- Created and implemented a design system and style guide that streamlined the internal workflow and efficiency while maintaining the e-commerce branding and aesthetics.
- Executed a 3-week website redesign to improve the flow through 3 rounds of usability tests by identifying users’ pain points through heuristic evaluation, and quantitative, and qualitative research methods.
- Ideated and delivered a 12-screen high-fidelity interactive prototype that optimized both customer needs, business goals, and strategy from customer journey map, C&C analysis, and business service blueprint.

UXDI Immersive Fellow | General Assembly | 2024

- Successfully completed 500+ hours of expert-led instruction in User Experience training of hands-on design fundamentals and designed 5 client-based projects individually and as a team that utilized UX methodologies and techniques.

ESL Educator | Austin Independent School District | 2023 - 2024

- Modified presentations, curriculum, and instruction to support the organization’s long-term performance objectives and client needs.
- Analyzed data on student learning to inform the successive iterations of instruction and monitor growth effectively.
- Conduct focus groups and synthesize key insights to refine curriculum design and implementation.
- Constructed and implemented both an entirely virtual and hybrid teaching model. Held responsibility for transitioning standard-based teaching materials to digital platforms.
- Effectively and efficiently created learning guides, instructional materials, and e-learning resources.
- Created proposals for PTA grants to finance a variety of classroom needs across the grade-level team

Educator & Special Education | Winston Salem Forsyth County Schools | 2021 - 2023

- Collaborated with planning and placement team members to review and update individual education plans.
